

DISCOVERY EDUCATION BOARDS

A How-To Guide, page 1

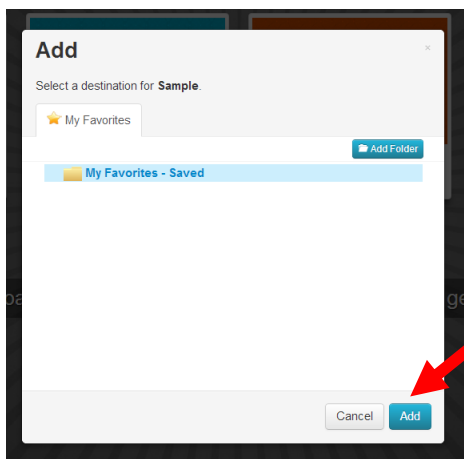

To get to the Board Builder tool, click here

Choose a theme to get started, or pick Blank to start from scratch

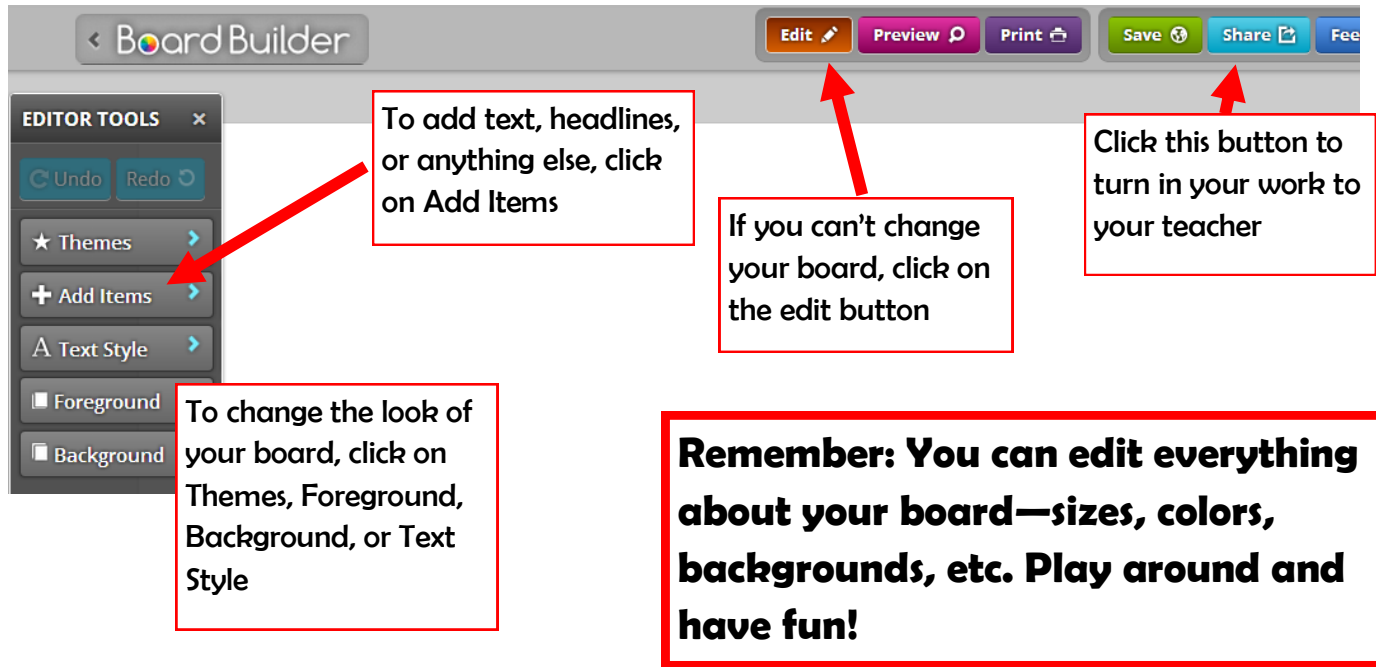

Create Board
Title Enter title
Description Enter description
Cancel Continue

Enter a title and a description for your board, then pick where to save it in your account (it's okay to just click Add)

DISCOVERY EDUCATION BOARDS

A How-To Guide, page 2

The screenshot shows the BoardBuilder interface. The top navigation bar includes buttons for Edit, Preview, Print, Save, Share, and Feedback. The left sidebar contains the EDITOR TOOLS menu with options for Undo, Redo, Themes, Add Items, Text Style, Foreground, and Background. Three callout boxes provide instructions: one for the Add Items button, one for the Edit button, and one for the Share button. A large red-bordered box contains a reminder to edit everything on the board.

To add text, headlines, or anything else, click on Add Items

If you can't change your board, click on the edit button

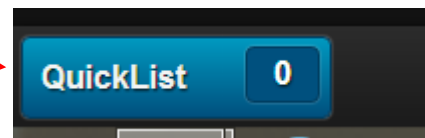

Click this button to turn in your work to your teacher

To change the look of your board, click on Themes, Foreground, Background, or Text Style

Remember: You can edit everything about your board—sizes, colors, backgrounds, etc. Play around and have fun!

Adding Media from Discovery Education

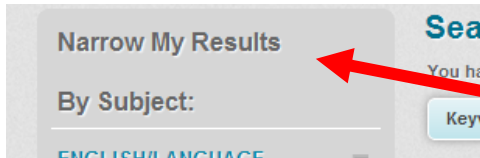

Add videos and pictures from Discovery Education by using your QuickList. Find your QuickList by looking for this button at the bottom left of your Discovery Education page.

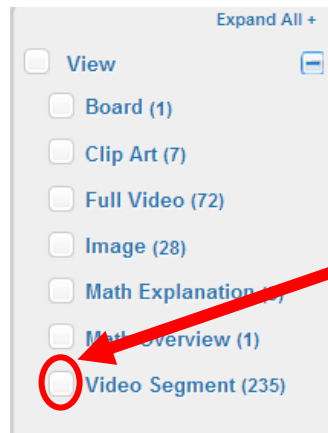

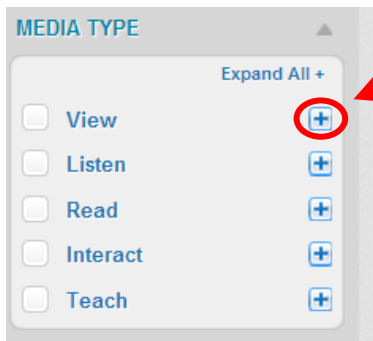

Use the search bar at the top of the page. Enter your keywords and hit the search button.

DISCOVERY EDUCATION BOARDS

A How-To Guide, page 3

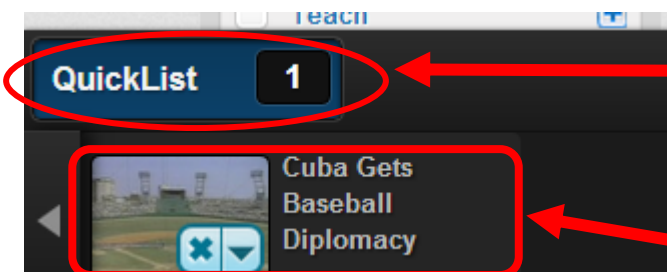

To look for only one type of visual media—image, full video, video segment—look at the Narrow My Results column on the left side of your page. Then, click on the plus sign next to View. After that, check the box next to the type of results you want.

EX) If you wanted a short video, you would check Video Segment

To add something to your QuickList, click on the +

From here, go back to your board builder and open your board. Click on your QuickList button to show the media you've selected. Click on the media item you want to add and drag it onto your board.
