Ms. Abounder is guilty

Were you able to follow the clues, who killed Mrs. Figueroa? During the winter vacation Mrs. Figueroa was killed in the Dominican Republic. Now the suspects were Ms. Abounder, Mr. Kealey, John, Michelle, Amir and Hridika.

Mr. Kealey was not the killer, because he didn't go to Dominican Republic. John was not the killer because he didn't go to Dominican Republic either. Michelle didn't do it, because they couldn't find her finger print on the mug.

Amir didn't do it, because they couldn't find his finger print also. They couldn't find her finger print on the mug either. I believe that Ms. Abounder killed Mrs. Figueroa, because first they found sand in her shoe from the same beach from the same beach where they found Mrs. Figueroa. Second Ms. Abounder was in the Dominican Republic. Last and final, they found her finger print on the mug that Mrs. Figueroa was killed with.

The first reason that shows Mrs. Figueroa was killed by Ms. Abouder, when they found sand in Ms. Abouder shoe. Which came from the same beach where Mrs. Figueroa was killed, when we look at Mrs. Figueroa's sand sample it says, The color was beige, .5mm and well-rounded, And that sample matched with Ms. Abouder's sand sample. This proves that Ms. Abouder did went to the same beach where Mrs. Figueroa was found. Which proves Ms. Abouder is guilty.

Second reason that proves, Ms. Abouder killed Mrs. Figueroa is when we found out that Ms. Abouder did went to Dominican Republic. I know that because when Ms. Abouder took some picture on the tropical rainforest and there is a tropical rainforest in Dominican Republic. This shows that Ms. Abouder is guilty because she went to Dominican Republic where Mrs. Figueroa went for vacation.

On the other hand, some people believe that Ms. Abouder isn't guilty. However I still believe that Ms. Abouder is guilty. Last and final reason is when

we found her finger print on mug where Mrs. Figueroa was killed with. The finger print on the mug were two people's one was Mr. Kealey's and Ms. Abounder but Mr. Kealey's didn't exactly match, But Ms. Abounder one did exactly match. That proves Ms. Abounder is guilty because her fingerprint matches the mug.

In conclusion, Now we know that Ms. Abounder is guilty is when we found sand in her shoe, Second one was when we found out that Ms. Abounder was on Dominican Republic. Last and final is when we found her finger print on the mug. Before all those things happen Ms. Abounder got an email from Mrs. Figueroa about winning a lottery of one million dollar and visiting Dominican Republic. All those evidence shows that Ms. Abounder is guilty!
